

Indium - ^{111}In - DTPA Injection

[Production Information](#) (PI)

Product Code	10159
Indications	Pentetate Indium Disodium [^{111}In] is recommended for use in radionuclide cisternography
Pharmaceutical Form	Sterile pyrogen - free intravenous injection
Specific Activity	Carrier free
Radioactive Concentrate	37MBq/mL
Pack Size	55.5MBq (1.5 mCi)
Calibration	0600 hours Sydney time Thursday
Availability	To order - 7 days notice required
Expiry	7 days from calibration
Aust R	22787
