

20 April 2020

UPDATE: ANSTO scheduled maintenance

To ensure nuclear medicine is available to Australia throughout COVID-19, we've reprioritised dates of the scheduled maintenance for OPAL, the Mo-99 Manufacturing Facility and our nuclear medicine processing and distribution facility, also known as building 23. The updated dates are as follows:

- OPAL reactor: 9-23 June
- Mo-99 Manufacturing Facility: 15-27 June
- Building 23: November (TBC)
