

# Sponsor & Exhibitor Packages

ANSTO will host the ANSTO User Meeting AUM 2023 at the Southern Sydney Event Centre in Hurstville to showcase the achievements of scientists who have accessed ANSTO's infrastructure and capabilities in the last year. The event will incorporate the combined annual meetings of the Australian Neutron Beam Users Group (ANBUG) and the Australian Synchrotron Users Advisory Committee (UAC).

Several hundred scientists are invited to attend the event where users have the opportunity to showcase their recent research outcomes. It is also an opportunity for prospective users to hear about the unique capabilities of ANSTO's scientific infrastructure, which comprises a suite of neutron beam instruments in Sydney and synchrotron beamline in Melbourne, as well as a range of other capabilities for scientific investigations including biological & chemical deuteration, radiation measurements, use of natural and radioactive isotopes, radiochemistry, materials characterisation, accelerator mass spectrometry and ion beam analysis, amongst others.

## Themes

Manufacturing, Engineering & Industry

Biological Systems & Life Science

Solid- State Physics

Chemistry, Pharmaceuticals & Crystallography

Advanced Materials

Instruments and Techniques

Earth, Environment & Cultural Heritage

Food Science & Soft Matter

Deuteration for Neutrons & More
