

# Biological Small Angle X-ray Scattering (BioSAXS) Beamline

First merit users on BioSAXS - A significant milestone for the beamline

Thursday 26 October saw the first merit users on the BioSAXS Beamline.

The experiment, Interfacial crystallization of lipids in food formulations in the presence of sugar-based emulsifiers, is being led by researchers from the University of South Australia - Marta Krasowska, David Beattie, Jessica Frahn, Amalie Moller, Piotr Pawlitzak & Malgorzata Hermanowska-Young.

This milestone is a credit to the hard work and dedication of the entire BioSAXS project team and the support they have received from colleagues across the Synchrotron.
